1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sidney Weatherford on December 17, 2008.

The application has been amended as follows:

IN THE CLAIMS:

In claim 1, line 13, "the error signal" has been changed to ----the error control signal----.

In claim 1, line 14, "detected signal" has been changed to ----detected error control signal----.

In claim 1, line 15, "detector" has been changed to ----decision----.

In claim 5, line 2, "B" has been deleted.

2. The following is an examiner's statement of reasons for allowance: All the claims are allowable over the prior art because prior art fail to teach or fairly suggest a receiving method as recited in the present claims particularly with the features of applying a weighting function in the receiver to an error control signal for symbols coded according to the first keying mode, wherein the error control signal is reduced when the detected error control signal approaches decision boundaries of the first keying mode, and subduing responses outside the decision boundaries of the given detected symbol

of the first keying mode, wherein no weighting function is applied to symbols associated with the second keying mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
